OBJECTIVE

Detail-oriented and innovative Java developer with a strong foundation in full-stack web development and real-world experience building scalable systems using Java, Spring Boot, JSP, and databases like MySQL, PostgreSQL, and MongoDB. Proven ability to craft efficient, maintainable solutions for business needs. Adept at collaboration, troubleshooting, and aligning development work with business goals.

EDUCATION

Bachelor in Technology , Parul University Computer Science and Engineering.	2022 - 2025 6.50 CGPA
Diploma in Technology , T.R.T.C. Patna Production(Mechanical) Engineering.	2017 - 2020 73.5
Matriculation Central Board of Secondary Education	2015 7.2 CGPA

SKILLS

Programming Languages: Java, JavaScript, SQL
Web Tech: HTML, CSS, React.js, Bootstrap
Frameworks: Spring Boot (REST APIs, JWT Authentication, Microservices)
Databases: MySQL, Oracle SQL, PostgreSQL, MongoDB
Tool: Git, GitHub, Docker, Netlify, Vercel (deployment platforms)

EXPERIENCE

Technical Apprentice GE Transportation	Jan 2021 - Jan 2022 <i>Bihar, India</i>
Junior Engineer Wabtec Corporation	Jan 2022 - July 2022 <i>Bihar, India</i>

PROJECTS

Expensoo - Smart Expense Tracker

Built a full-stack web app using React.js, Spring Boot, and PostgreSQL to track income/expenses, manage shared budgets, and provide real-time financial insights with interactive dashboards. Implemented role-based authentication and REST APIs for secure multi-user access, and deployed via Docker for scalability with integrated financial reporting.

RxFlow – Medicine Shop Billing and Inventory Management System

Developed a full-stack application to streamline pharmacy billing, inventory tracking, and stock management. Automated invoice generation, stock updates, and sales tracking, reducing errors and improving efficiency with real-time monitoring and low-stock alerts, ensuring better customer service.
